Circular

Dear Parents/Students,

We would like to inform you that our school will be hosting a "Reuse and Rewind" Class competition for class 2nd to 8th this week i.e on 28/04/23 (Friday). This class competition aims to promote environmental awareness and encourage everyone to reduce waste by reusing and recycling materials. Make a model or Best out of waste on this day.

In addition, we will be showing a short film about the impact of waste on the environment, and how we can all make a difference by reducing waste and reusing materials.

We hope that you will join us in this meaningful activity and take the opportunity to learn about how we can all contribute to a cleaner and greener environment.

Note:- If you have any query related to this competition so kindly contact with your class teacher.

Regards

Principal
